GLOBALGAP

Our products are Global G.A.P.* certified.

The internationally accepted Global G.A.P. certificate is a guarantee for:

- demonstrable good agricultural practice
- demonstrable good industrial hygiene
- demonstrably monitoring the safety of people and products
- demonstrably correct use of agrochemicals
- demonstrably correct handling of fertilizers
- demonstrable prevention of preventive maintenance
- full traceability of the product throughout the entire product chain

* (G.A.P. = Good Agricultural Practices).

MPS

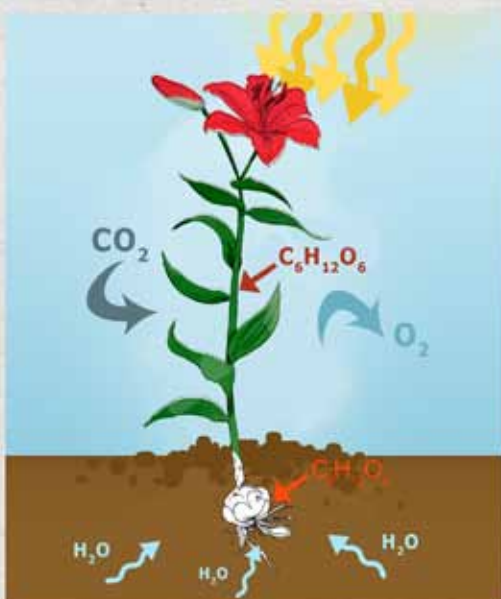

Sustainable Quality

Our products are MPS certified.

The MPS Group facilitates horticultural entrepreneurs worldwide in their ambition to work in an environmentally neutral manner, with respect for people and nature and with the aim of adding nature value to the future. At the MPS Group they find a total package to make quality and sustainability transparent, to measure and to prove.

MPS develops advanced automated processes and innovative certification schemes for this. MPS-ECAS performs independent audits and awards certificates relevant to horticulture at all links in the chain. By proactively sharing sector knowledge, stimulating entrepreneurs, advising the sector and connecting parties, MPS-ECAS accelerates the sustainability thinking and acting of entrepreneurs. MPS-ECAS thus actively contributes to a better world and a healthy and happy life for people.

The lily flower bulb cultivation of Lily Company BV permanently stores 286.902 kg CO₂ every year in the flower bulb production of 110 hectares of lilies.

This lily bulbs are sold for garden and park planting and therefore the flower bulbs continue to fix CO₂, adding to the amount stored.

Number of bulbs per lily crate

Size	Lilium	Martagon
10/12	500	400
12/14	400	300
14/16	300	200
16/18	200	150
18/20	150	125
20/22	125	100
22/24	100	75
24/+	75	50
