Hydroponic

Have you ever tried Hosta on water?? A new Hosta concept... Hydroponic Hosta is easy and fun! Plant a bare root in transparent glasses and have a stunning display of this ornamental plant!

Location

When growing Hydroponic Hostas, keep them in a shady location that receives bright indirect light.

Change Water Frequently

You'll have to change the water every 6-7 days or sooner if it becomes discolored.

Durability

In case the plant goes dormant you can transplant the Hosta outside and you can enjoy your Hosta in the garden or patio next spring, again!

Concept

Please contact your sales contact for more info.
