Zabo Plant
LILIES FOR PROFESSIONALS

Expert in flower bulbs

Zabo Plant is a specialist in the export of calla and lily bulbs.

We ship millions of bulbs all over the world for the production of potted plants and cut flowers from our world-wide headquarters in the Netherlands. We focus on innovation in product and technology and work on the development and improvement of our operating processes on a daily basis. Our high-tech cooling facilities guarantee the optimum storage of the product. Our production division in Chile and distribution facilities in the United States offer us outstanding opportunities for the sale and support of our product towards the growers we supply.

Together with the best bulb, flower and potted plant growers and nurseries in the Netherlands and abroad we select the most qualified varieties that are distinctive in color, vigor and plant performance and are therefore of added value to the consumer. We represent the CallaNova, Roselily and Lily Looks product lines, with which we grant our customers access to the unique genetics of double-flowered lilies and genetically short potted lilies and unique calla lilies.

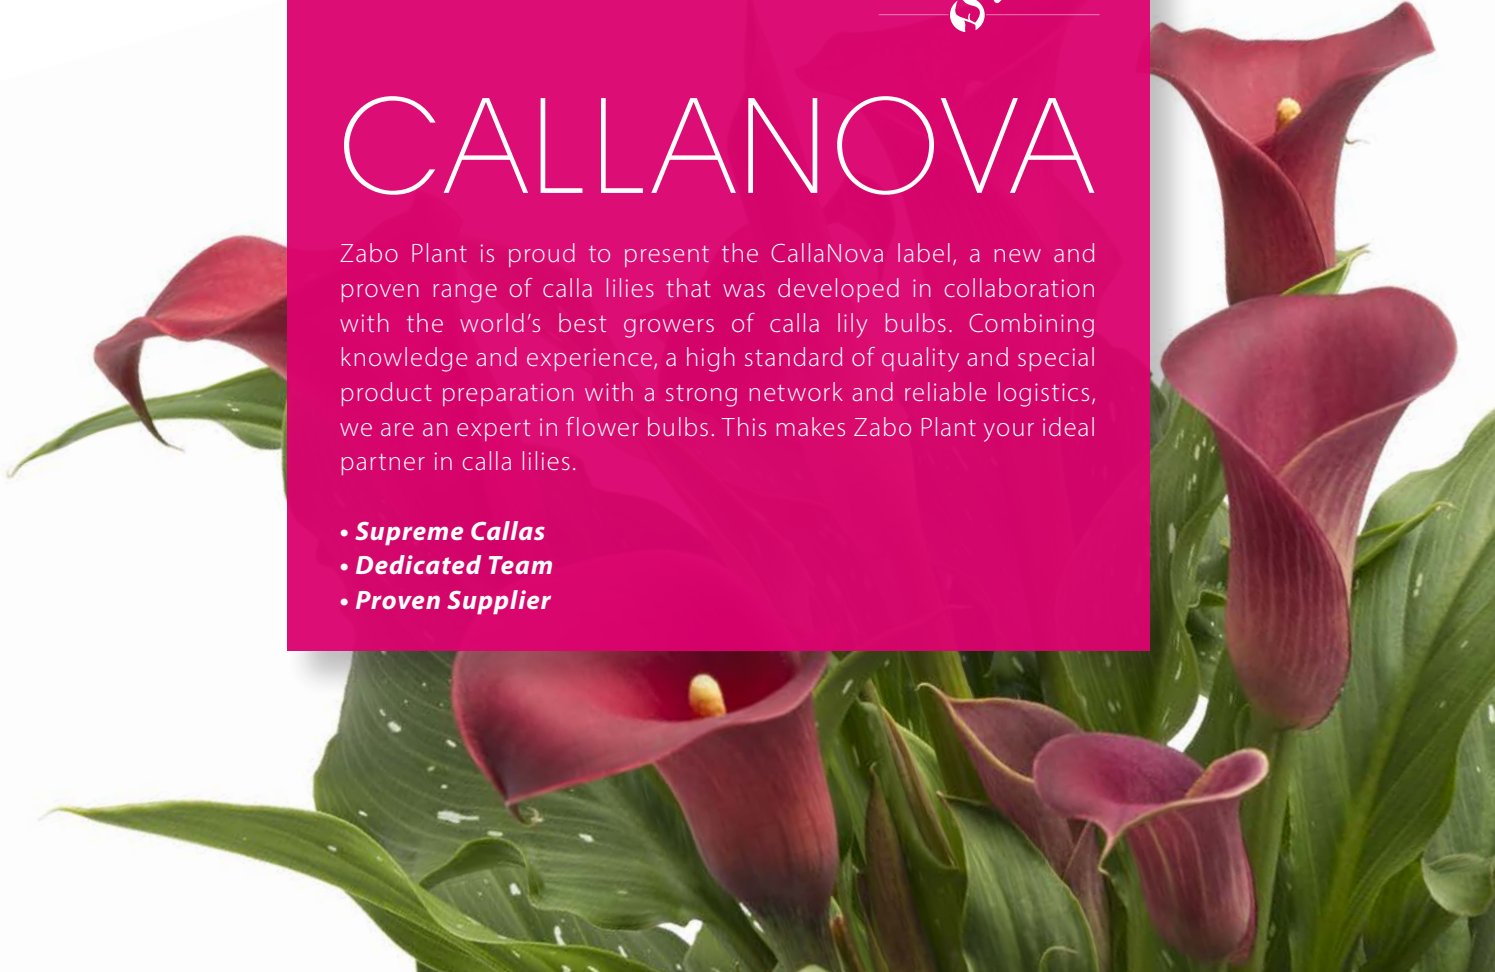

CALLANOVA

Zabo Plant is proud to present the CallaNova label, a new and proven range of calla lilies that was developed in collaboration with the world's best growers of calla lily bulbs. Combining knowledge and experience, a high standard of quality and special product preparation with a strong network and reliable logistics, we are an expert in flower bulbs. This makes Zabo Plant your ideal partner in calla lilies.

ZABO PLANT SELECT

Our callas are tested for possible worldwide use. When new varieties are being selected for our program, we look for that perfect plant. A gorgeous plant will always end up in the consumer hand. To get top quality varieties for our customers, we look at every variety in close detail and rate them.

New varieties are selected for specific plant characteristics and strong bulb growing capabilities.

- Strong and healthy in tuber production
- High flower count
- Eye catching plant look
- Uniform growing
- Easy to grow into a potted plant
- Long shelf live

New varieties that have these hallmarks we do introduce as Zabo Plant Select.

STRONG, EYE CATCHING & EASY TO GROW

LILY LOOKS

The Number 1 potted lily brand in the world.

Zabo Plant represents the Lily Looks potted lily brand. Lily Looks varieties are only brought to the market after thorough testing by Wetering Pot liliums, a nursery specializing in potted lilies. They are tested for the richness of their flowering potential, their hardiness during transport, genetic compactness, and growth rate. Only varieties that pass these tests are good enough for the Lily Looks range.

The Lily Looks brand only presents the highest-quality potted lilies, which are distinguished by their:

- ***Rich flowering***
- ***Easy cultivation***
- ***Rapid growth***
- ***Genetic compactness***
- ***Hardiness***
- ***Uniformity***

The Lily Looks brand includes various product lines. We can supply fresh bulb material to grow potted lilies in any size pot and at any time of the year.

LILY
LOOKS

TINY SERIES

Potted Asiatic hybrid lilies

The 'Tiny Series' is supplied to growers all over the world. The wide choice of colors combined with a rapid growth and easy cultivation mean that this plant is suitable for a broad range of applications. As there are several varieties available in each principal color family, we can supply plants in each color that are suited to the local growing conditions of every region or country. Success guaranteed!

Tiny Double You is a special breed within the 'Tiny Series'. The flowers produced by this genetic short double-flowered Asiatic hybrid are uniquely shaped. The bulbs are easy to grow into plants and readily available.

SUMMER SERIES

LA Hybrid 'Summer Series': extremely resilient with enormous, brightly colored flowers.

The 'Summer Series' is characterized by large flowers, hardiness, and a wide range of colors. This unique line of genetically short LA hybrids is ideal for growing in pots in spring, and even more so in the summer months. Part of the Lily Looks brand, this new line was named for its ability to tolerate the summer heat. The selected varieties have been tested extensively in warmer climates. The 'Summer Series' produces an abundance of large flowers, has lovely, dense foliage and is available in a wide spectrum of colors.

ROSELILY

Exclusive and Unique:

Roselily 'double-flowered potted Orientals'

The Roselily brand has been selling beautiful double-flowered and pollen-free Oriental hybrids as cut flowers for a number of years. Recently, the breeder behind this brand brought the first genetically compact varieties for potted plant production to the market. Roselily breeding started in 1993, with the cut flower segment as its principal market.

The breeding program is designed to produce double-flowered pollen-free Orientals. Each variety goes through a rigorous selection process, which takes into account aspects such as resilience and hardiness throughout the chain for retailers and consumers. A cooperative of ten flower bulb growers cultivate the bulbs for this unique breeding program. They are responsible for creating virus-free stock material and propagating Roselily bulbs.

Zabo Plant has been an exporter of the Roselily brand ever since this line of lilies was launched. As a distributor, we are closely involved in the selection, testing and marketing of new varieties, so it is an honor to introduce the genetically short varieties in these coming years. The Roselily potted plants range is suitable for both indoor and outdoor use and is a great product for the retailer. The plants are new, unique, and have a pleasant scent and a long vase life. Roselily is the future in double-flowered potted lilies!

SEE TOMORROW'S LILIES TODAY

Lilies have always been in demand. But the Dutch Lily Days have drawn attention to this flower again. On all fronts, developments are accelerating. Lily breeders have taken great steps to perfect their assortment. The trade constantly receives updates about promising novelties. Pot lilies and double-bloomed cut lilies are creating new market segments. At the end of the chain, florists and consumers are enthusiastic participants.

This makes the Dutch Lily Days an ideal benchmark for the state of affairs. It's a moment to contemplate and revise the assortment or to discuss trends, chart market opportunities and network.

Team Zabo Plant welcomes you during the Dutch Lily Days.
